

The First NEOMA BS Workshop on FinTech and Cryptofinance

November 8, 2018

9 rue d'Athènes, 75009 Paris

The Department of Finance at NEOMA Business School will organize its first workshop on FinTech and Cryptofinance on **November 8, 2018 in Paris**, France. Its aim is to provide a platform, where scholars present and discuss their current research on new developments in Fintech and cryptofinance.

In addition to leading academic sessions, the workshop also hosts a practitioner-related round-table to explore the latest technological innovations and solutions across the financial services sector.

Topics

We welcome submissions of papers in all areas related to Fintech. Topics include, but not limited to:

- Financial technology: empirical and theoretical studies including economic impacts, applications, regulations
- Cryptocurrencies, Central bank digital currencies, Payment technologies and online exchanges
- Blockchain, Distributed ledger technologies, Smart contracts, Internet of things
- Big Data, Artificial intelligence, Machine learning for finance
- Crowdfunding (investing, funding, or lending), P2P lending
- Social trading
- Financial inclusion

Keynote Speaker

We are very pleased to have **Professor Neil Gandal**, Tel Aviv University, as our keynote speaker.

Submission

Authors are invited to submit a PDF version of their paper to arash.aloosh@neoma-bs.fr by **August 31, 2018**. There is no submission fee.

The authors of accepted papers will be notified by **September 25, 2018**.
